

RCB Internal Match Strategy Document - Finals 2026

This document contains internal planning notes, player responsibilities, tactical strategies, batting order considerations, bowling execution plans, and match preparation guidelines prepared for the IPL 2026 Finals.

1. Team Objectives

The primary objective for the finals is to maintain scoreboard pressure during powerplay overs while preserving wickets for the final 10 overs. The team aims to achieve a run rate above 9.5 during middle overs.

2. Key Responsibilities

Virat Kohli will anchor the innings during the powerplay phase. Rajat Patidar is responsible for accelerating the scoring rate against spin bowlers. The bowling unit must focus on yorkers and slower deliveries during death overs. Fielding coordinators are responsible for boundary-line placements and quick relay throws.

3. Batting Strategy

The batting strategy focuses on aggressive intent during the first six overs. Left-right batting combinations should be maintained whenever possible. Players are encouraged to target short boundaries against medium pace bowlers.

4. Bowling Strategy

Bowlers should avoid predictable line and length combinations. Slower balls and wide yorkers should be used frequently during overs 16-20. Spin bowlers should attack during middle overs when new batters arrive at the crease.

5. Field Placement Recommendations

Deep square leg and long-off should remain protected against power hitters. During spin overs, close-in catching positions should be activated for new batters.

6. Match Preparation Notes

Players must attend morning fitness sessions before match day. Video analysis sessions will focus on opposition weaknesses during chase situations. Hydration and recovery protocols are mandatory after practice sessions.

Example Questions for AI PDF Chatbot Demo

Question	Expected AI Understanding
What are the key responsibilities mentioned in the document?	Refer to the key responsibilities section

What is the bowling strategy for death overs?	Retrieve slower balls and yorkers
Who is responsible for accelerating against spin?	Retrieve Rajat Patidar section
What are the team objectives?	Retrieve run-rate and scoreboard pressure section
What preparation activities are mentioned?	Retrieve fitness and video analysis notes
